

Kelly Engineering

Apprenticeships in metal fabrication

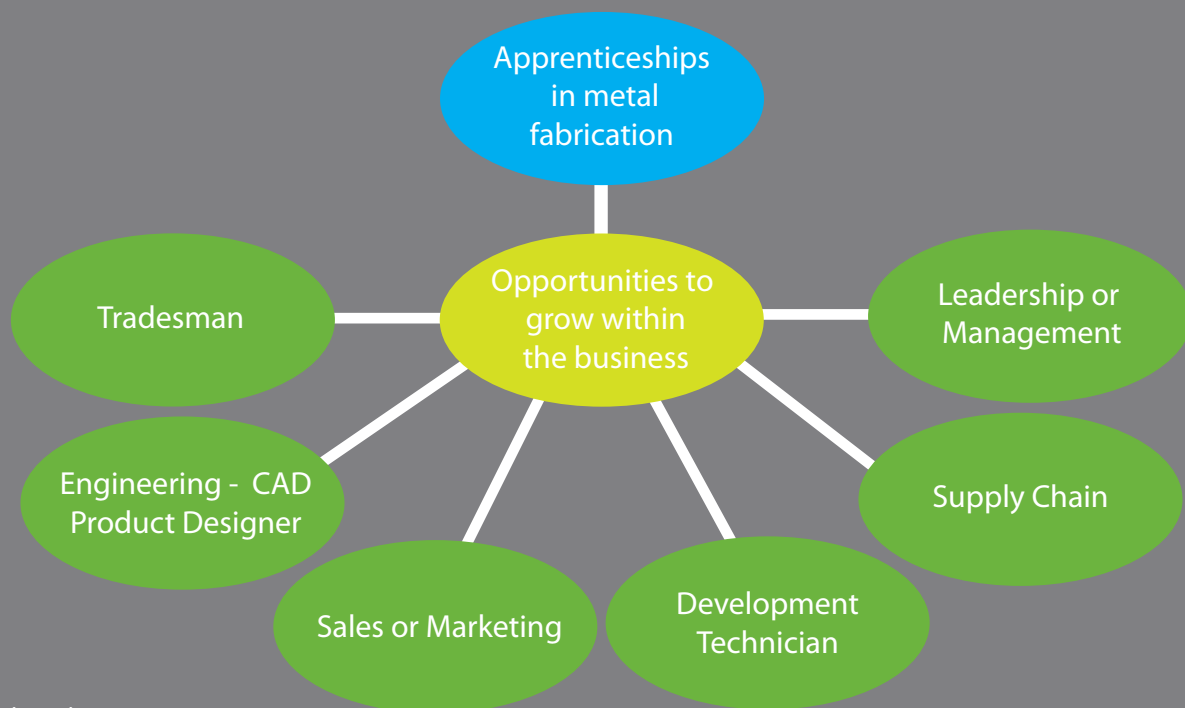

It's more than just a Trade

Operating out of Booleroo Centre, South Australia, Kelly Engineering specialises in the design, manufacture and distribution of disc chain tillage equipment for consumption in North America, Australia, Europe, Africa and many other countries.

Our mission is to offer tillage equipment to farmers all over the world that contributes to sustainable farming practices in a meaningful, innovative and cost effective way.

Kelly Engineering can offer a fantastic learning environment for best practice LEAN manufacturing methods. Unique product skills learnt provide our apprentices a pathway into a number of different career opportunities, that our growing global business has to offer. We encourage male and female applicants.

To apply or for more information go to: <http://www.kellyengineering.com.au/careers/>
All applications must be submitted by the 9th of November 2017
